

HELP US FLOURISH IN THE 2016 DROUGHT

Water is always a critical issue at The Haven, and 2016 is a **drought year**. We are having water delivered from Nanaimo, which is costly and environmentally unfriendly, so we want to do this only as much as we have to.

YOU CAN HELP US both before and during your stay. Here's how.

Before you come

- **Don't plan to do any laundry** while you are here. We have closed the guest laundry.
- **Bring your own towel** for the pool and hot tub.
- **Or buy** one of our special **Haven Water-Saving Superhero pool towels**.
- Bring a **water bottle** and a **jug of drinking water** for refills.
- Bring your own **travel mug** for coffee and tea.

During your stay

- **Use the lines provided** at the hot tub, pool and your room to air dry towels.
- **Reuse** your coffee/tea mug.
- **Use the shower**, not the bath. Our low-flow showerheads use 2.5 gallons of water a minute compared to 30 gallons for a bath.
- Have a **short shower**, only when you need one.
- **Compostable plates** and cups are used at busy times to reduce dishwashing.
