

# ABOUT THE HAVEN FOR EMPLOYERS

The Haven is an experiential learning centre on Gabriola Island, BC. Specializing in personal growth and professional development, our holistic centre offers a unique curriculum that you won't find anywhere else. Developed by a psychiatrist and physician, our core programs incorporate Eastern wisdom and Western science to offer participants opportunities to find healing, growth, and transformation in mind, body, and spirit. In essence, we help people thrive, not just survive.

Our Alumni come from diverse personal and professional backgrounds and life experiences and unlike many conventional job-related trainings, leave with tools and resources they can apply to all aspects of life. Since 1983, thousands of people have participated in our Come Alive and Living Alive immersion programs with outcomes of:

- More effective communication and relationship building.
- Greater resilience and wellbeing.
- Strengthened ability to facilitate difficult conversations and conflict.
- Elevated leadership skills.
- Enhanced self-awareness and self-responsibility.
- Increased productivity and performance.

*"The Come Alive in August 2016 was a game changer for me – it directly improved my well being, work performance and income... I attained 314% of my quota in the months following and won several awards for my performance that year – a true win-win for both my employer and me!" - Jayn Steele.*

*"Managing is not always a fun job, but I am finding that the use of curiosity and awareness is in fact making my job AND my life a lot better - read: more fun, less stressful and more interesting..." - David Babich*

We hope you'll consider supporting or sponsoring your employee. As a registered educational facility with the Private Training Institutions Branch (PTIB), employers are able to claim all program-related costs as a business operating expense. We also offer preferred pricing for non-profits and partner organizations. Please connect with us for more info.
